1. Products to Be Updated

Embedded Target for RH850/F1KM Virtual Platform V2.00.00

2. Description

The main changes are as follows.

2.1 New Features

- Support AUTOSAR/MCAL
In addition to the function of generating peripheral driver code in conjunction with Renesas' Smart Configurator, V2.00.00 works with the following tools to generate RTE, BSW, and MCAL code that conforms to the AUTOSAR specification.
For details on the operating environment and how to use it, please refer to the User's Manual.
 - MICROSAR, DaVinci Developer, DaVinci Configurator Pro by Vector
 - MCAL by Renesas

3. Free Evaluation Edition

Before purchasing the product, you can evaluate its performance and functionality with the evaluation edition.

After obtaining the evaluation edition from the download list in Product web page, please request the license key from your distributor or our sales representative.

4. Purchasing the Product

Contact your local Renesas Electronics sales office or distributor and inform them of the following product information.

For the price of the product, contact the sales office or distributor.

Product name	Part No.
Embedded Target for RH850/F1KM Virtual Platform	RTC00CST000000014J
